Important Information

Cost Basis is the original amount you paid for shares in your Fund account, including the value of reinvested dividends and capital gains distributions. Upon a sale or exchange of Fund shares within a taxable account, you will realize a capital gain or loss, which is determined by comparing the sales price to the cost basis. Covered shares are Fund shares acquired on or after January 1, 2012. Dodge & Cox Funds will report the cost basis of any covered shares sold to you and to the IRS on Form 1099-B. Non-covered shares are Fund shares acquired prior to January 1, 2012, or shares transferred into your account without corresponding cost basis information. If you sell or exchange non-covered shares within a taxable Fund account, and the Dodge & Cox Funds have average cost basis information for your shares, the cost basis and holding period information will be reported to you along with your Form 1099-B. This information will not be reported to the IRS. If you have chosen a method other than the average cost method for your non-covered shares, you are responsible for keeping those cost records.

Verification of Account Statement: You should contact us immediately regarding any errors or discrepancies on this statement confirming your transaction(s). This statement will be deemed correct if we do not hear from you within 90 days.
