U.S. Economy

Fed Funds Rate vs. 10-Year U.S. Treasury

GDP Percent Change

Unemployment Rate vs. Labor Participation Rate

US Inflation Rates

U.S. Economy

Source: Bloomberg

Economic Activity Has Rebounded

- U.S. economic activity appeared to bottom in April with the Markit Services PMI falling to 26.7 and the Manufacturing PMI falling to 36.1
- As quarantine restrictions have been lifted, activity has rebounded with the Services PMI reaching 47.9 and the Manufacturing PMI rebounding to 49.8 in June; however, readings remain below 50 indicating the economy is still in contraction
- With COVID-19 cases spiking in certain parts of the country, the “V” shaped recovery in economic activity could be derailed in the third quarter

Recession Likely Steep but Short

- Consensus estimates for U.S. GDP growth have been volatile with analysts now projecting a greater contraction in 2Q20 (-34.7%) than had been projected in April (-22.3%)
- Consensus expectations are for growth to rebound dramatically in 3Q20 (+19.9%) and 4Q20 (+7.8%)
- Despite expectations for a strong recovery in the second half of 2020, the consensus estimate is a year-over-year decline in growth of 5.1% for CY 2020

Source: Bloomberg

U.S. Economy

Source: U.S. Employment and Training Administration, Initial Claims [ICSA], retrieved from FRED, Federal Reserve Bank of St. Louis

Record Number of Unemployment Claims

- The shutdown caused by the COVID-19 pandemic has resulted in a record number of unemployment claims
- Over 50 million workers filed initial unemployment claims since mid-March
- The number of new weekly claims has declined from a peak of 6.9 million filed the week of March 28th to 1.3 million for the week of July 11th, although the pace of the decline has slowed in recent weeks

Unemployment Rate Reaches Record High

- The significant number of initial jobless claims due to the COVID-19 pandemic resulted in an unemployment rate of 14.7% in April, the highest level since the Great Depression
- As parts of the country have emerged from lockdown, nonfarm payroll rose by 4.8 million in June, well ahead of expectations for an increase of 2.9 million
- Combined with 2.7 million of new jobs in May, the unemployment rate dropped to 11.1% in June
- Expanded unemployment benefits provided through the CARES fiscal package are set to expire in July

U.S. Economy

Source: Board of Governors of the Federal Reserve System (US), Assets: Total Assets: Total Assets (Less Eliminations from Consolidation): Wednesday Level [WALCL], retrieved from FRED, Federal Reserve Bank of St. Louis

Unprecedented Monetary Support

- The Federal Reserve's balance sheet has grown from \$3 trillion in March to more than \$7 trillion currently as the central bank delivered massive monetary accommodation through the purchase of corporate and municipal bonds and loans to businesses in order to support the economy

Fed Intervention Helped Calm Markets

- Equity market volatility, as measured by the VIX, spiked during 1Q20 to levels not experienced since the GFC, peaking at 82.7 on March 16th
- VIX declined to below 30 over the course of 2Q20 as central bank intervention supported markets
- At 27.7 as of June 30, the VIX is still elevated relative to the average level of 17.3 for the last 10 years

- U.S. equities had their best quarter in over 20 years as accommodative monetary policy and fiscal stimulus helped the S&P 500 rally 38% from the March market low to the end of 2Q20
- YTD performance for the S&P 500 has largely been driven by five large tech companies (shown in chart on the left) which represent 22% of the index and have largely benefited from stay-at-home orders
- As measured by the Russell 2000 Index, small cap U.S. equities (+25.4%) outperformed large caps, although large caps continue to be ahead over longer periods
- Growth stocks continued their domination over value, with the Russell 1000 Growth Index returning 27.8% while the Russell 1000 Value Index returned 14.3%

U.S. Equity Market

Strong Recovery in Most Sectors

- While all sectors rose during the quarter, defensive sectors (consumer staples and utilities) largely lagged the broader market
- The energy sector rebounded from a 50% decline in 1Q20 as crude oil returned 92% during 2Q20; however, the sector is still down 36% over the last 12 months
- Information technology was the best performing sector for the quarter (+30%) and over the last year (+36%)

Strong Quarterly Returns Often Followed by Additional Gains

- 2Q20 was the fourth best quarterly return for the S&P 500 since 1950
- Historically, the best performing quarters have been followed by additional gains

Best Quarter For The S&P 500 Index Since 1998

Big Quarterly Gains Historically See Continued Strength

Quarter	Quarterly Gain >15%	Next Quarter	S&P 500 Index Return	
			Next Two Quarters	Next Four Quarters
Q3 1970	15.8%	9.3%	19.1%	16.8%
Q1 1975	21.6%	14.2%	0.6%	23.3%
Q4 1982	16.8%	8.8%	19.5%	17.3%

U.S. Stocks Trading at Multi-Year High Valuations

- The forward P/E of the S&P 500 increased from 15.4x at the end of 1Q20 to 21.7x at the end of 2Q20 as prices rapidly recovered while near term earnings estimates have declined
- As a result, stocks are now trading at valuations well above the long-term average of 16.4x

Market Expects a Fast Earnings Recovery

- S&P 500 earnings are projected to decline by over 24% in 2020 based on the most recent estimates by analysts
- Expectations are for a quick recovery in earnings in 2021 as economies recover from the impact of the COVID pandemic
- Consensus is for S&P 500 earnings to grow by 29% in 2021 to return to an all time high

Source: Bloomberg

U.S. Equity Market

Russell 1000 Growth vs. Russell 1000 Value
Rolling One-Year Returns

S&P 500 vs. Russell 2000
Rolling One-Year Returns

- The magnitude of the outperformance of growth vs. value is at the highest level in 20 years as growth stocks outperformed during both the 1Q20 market sell-off and the subsequent recovery in 2Q20
- Value indices have been negatively impacted by their high exposure to the energy and financial sectors, both of which have lagged the broader market
- The energy sector, which represents over 6% of the large value index and less than 1% of the large growth index, has returned -35% over the last 12 months and is the only sector with negative performance over the last three years
- Conversely, technology, the best performing sector over the last year, represents 44% of the large growth index and 10% of the large value index

- Similar to the U.S. Federal Reserve, central banks across the globe unleashed massive levels of stimulus to combat the impact of the pandemic on their economies
- Despite strong gains in most markets, international equities again underperformed vs. U.S. markets in 2Q20
- Developed non-U.S. markets returned 14.9% as measured by the MSCI EAFE Index while emerging markets returned 18.1% as measured by the MSCI Emerging Market Index
- As was the case in the U.S., small caps led large cap and growth outperformed value
- Among developed market countries, Germany performed strongly, up 27%, while the U.K. lagged (+8%)

International Equity Market

Trade Weighted U.S. Dollar Index: Broad, Goods & Services

Source: Board of Governors of the Federal Reserve System (US)

U.S. Dollar Retreats From Multi-year High

- Despite reaching a multi-year high of 123.6 in April, the U.S. Dollar depreciated to 120.0 in 2Q20 as the safe haven buying experienced in 1Q20 began to fade
- The Euro specifically appreciated relative to the dollar as the ECB exceeded expectations with their bond buying stimulus program
- With the dollar still stronger relative to the start of the year, non-U.S. equity returns for U.S. Dollar investors are lower than local currency returns in most markets

Unprecedented Period of U.S. Equity Market Outperformance

- U.S. equity markets have now outperformed developed non-U.S. markets by 158% cumulatively over the last 12.6 years
- Notably, while the length of the period of outperformance is longer than any other period over the last 50 years, the magnitude is less than that of the U.S. outperformance in late 1990s and the period of non-U.S. outperformance in late 1980s

MSCI EAFE and MSCI USA relative performance

- Treasury yields were largely unchanged during the quarter as quantitative easing and low yields globally kept rates near record lows
- The U.S. Federal Reserve is projecting no rate hikes through 2022
- Significant central bank support both in the U.S. and globally resulted in tighter spreads for credit sectors
- As a result, credit outperformed Treasuries with high yield (+10.4%) outperforming investment grade (9.0%)

Bond Market

OAS Credit Spread

High Yield Spreads Tighten During 2Q20

- Fed support and a restart of the economy allowed high yield markets to retrace a large percentage of the widening that occurred in 1Q20
- At 6.44% at the end of 2Q20, spreads are over 400 bps tighter relative to the YTD wide seen in March; however, they remain well above the level at the start of the year (3.60%) and slightly above the 20-year average of 5.80%

Federal Reserve Support Results in Record Issuance

- The Federal Reserve facilities for buying corporate debt have led to a record level of issuance for investment grade and high yield companies seeking to take advantage of historically low borrowing rates to shore up liquidity given COVID related earnings uncertainty

FOR ILLUSTRATIVE PURPOSES ONLY: For each index the current yield to worst as of 6/30/2020 was used as the base case annualized return. The annualized return sensitivity to a uniform increase or decrease in the yield curve was calculated by taking the index's Macaulay's (Modified) Duration to Worst as of 6/30/2020 multiplied by the percentage point change in the yield curve (basis point change divided by 100) and then appropriately adding or subtracting this implied percentage change in the value of the index (due to the shift in the yield curve) to the base case annualized return. This is a rough approximation of the annual return sensitivity to parallel shifts in the yield curve. **SOURCE:** PENN Capital Internal Research.

Real Estate Market Performance Review

- Private real estate, as measured by the NCREIF ODCE Equal Weighted Index, returned -1.3% (-1.5% net) in 2Q20
- For the quarter, -2.5% of appreciation was partially offset by 0.9% of income
- Real estate appreciation is now negative over the trailing one-year period for the first time since June 2010
- Real estate investors have adjusted return expectations due to the COVID pandemic and are now forecasting a -4.0% return for 2020 and 4.7% over the next five years
- As recently as 1Q20, investors were forecasting real estate returns of 6% for 2020
- Investors expect the retail and office segments to be most impacted while industrial is expected to be the best performing sector

Real Estate Market

- Rent collections have improved since April across all real estate sectors based on a survey of listed REITs which own and operate between 10% and 20% of commercial real estate in the U.S.
- While retail rent collections have improved significantly since May as the U.S. economy reopens, shopping centers continue to be significantly negatively impacted with less than 70% of typical rents collected for July

Hedge Fund Strategy Performance

Hedge Fund Market Performance Review

- Hedge funds rebounded in Q2 in tandem with global equity and credit markets; the HFRI Fund of Funds Composite return in April of 3.41% was its highest monthly return since February 2000, helping the index to a Q2 return of 7.48%
- Equity-oriented strategies were the best performers for the quarter; the HFRI Equity Hedge index rose 13.3%, with technology-focused strategies continuing to outperform and energy-oriented strategies recovering, particularly in April as the HFRI Equity Hedge Energy/Materials Index rose 14.5% on the month
- The HFRI Event Driven Index was up 9.7% in Q2 but remains down 6.7% YTD; the pervasive “risk-on” sentiment helped drive strong Q2 results in equity-oriented event strategies, particularly in activist equity and merger arbitrage, where M&A deal spreads contracted
- HFRI reports that about half of all hedge funds posted positive returns in the first half of 2020, and the significant return dispersion witnessed in March remains evident in YTD results through June: the top decile of HFRI constituents gained 25% on average YTD, while the bottom decile declined 28%

Warehouse Employees Local No. 730 Welfare Fund - Asset Allocation

- Asset allocation reviews were presented and discussed with the Board of Trustees at the following meetings: December 5, 2007, April 1, 2009, March 11, 2010, May 2, 2013, March 14, 2014, March 19, 2015, January 15, 2016, March 27, 2017, September 29, 2017, March 5, 2018, March 27, 2019, and March 3, 2020.
- At the December 12, 2017 meeting, the Trustees adopted the following Policy: 50.0% investment grade fixed income, 40.0% short duration high yield fixed income, 5.0% real estate, and 5.0% cash.
- At the March 5, 2018 meeting, the Board of Trustees elected to rebalance \$200K from cash to investment grade fixed income (\$100K) and short duration high yield (\$100K).
- At the September 14, 2018 meeting, the Board of Trustees elected to rebalance \$350K from cash to investment grade fixed income (\$200K) and short duration high yield (\$150K).
- At the December 20, 2018 meeting, the Trustees elected to amend Policy Ranges to allow for more cash. The Trustees adopted the following Policy Ranges: 40.0-55.0% intermediate fixed income, 30.0-45.0% SDHY, 0.0-10.0% real estate, and 0.0-20.0% cash.
- At the March 27, 2019 meeting, the Trustees elected to rebalance \$1.1M from cash to investment grade fixed income (Wedge \$600K) and short duration high yield (Chartwell \$500K). The Trustees also elected to commit an additional \$400K to real estate (American Core Realty). Following the meeting, the recommendation was revised due to the anticipated cash needs of the Fund. Investment grade fixed income (Wedge) received \$300K and short duration high yield (Chartwell) \$250K.
- At the December 3, 2019 meeting, the Trustees elected to rebalance \$500K from cash to investment grade fixed income (\$250K) and short duration high yield (\$250K).
- At the April 10, 2020 meeting by teleconference, IPS made the following recommendation: Request American Core Realty Fund distribute income effective July 1, 2020. Decision: Approved.
- At the June 18, 2020 teleconference meeting, IPS made the following recommendations: 1) Rebalance the real estate allocation closer to Policy. Decision: Approved. The Trustees elected to redeem \$300K from American Core Realty effective September 30, 2020. American Core Realty has a withdrawal queue. 2) Rebalance \$350K from cash to investment grade fixed income (Wedge) and \$250K to short duration high yield (Chartwell). Decision: Approved. Assets transfers were completed on June 25, 2020.

Recommendation: None.

Warehouse Employees Local No. 730 Welfare Fund - Recent Portfolio Activity

2019 - 3Q

- On July 1, 2019, \$400K excess cash transferred to American Realty Advisors to satisfy a capital call.

2019 - 4Q

- On December 13, 2019, \$500K excess cash transferred to investment grade fixed income (\$250K - WEDGE Capital Management) and short duration high yield (\$250K - Chartwell Investment Partners) for rebalancing.

2020 - 1Q

- None.

2020 - 2Q

- On June 25, 2020, \$550K excess cash transferred to investment grade fixed income (\$200K - WEDGE Capital Management) and short duration high yield (\$350K - Chartwell Investment Partners) for rebalancing.

Warehouse Employees Local No. 730 Welfare Fund - American Core Realty Fund, LLC

Manager Summary

- ARA has implemented a withdrawal queue effective June 30, 2020.
- IPS conducted due diligence meetings with American Realty Advisors on June 4, 2018, August 19, 2019 and April 9, 2020.

Recommendation: None.

Compliance Summary

Manager verified that the portfolio is currently, and has been during the past quarter, in compliance with the firm's commingled investment vehicle investment guidelines and/or offering document governing the management of the investment. With respect to the portfolio(s) under management, manager acknowledges sole fiduciary responsibility under ERISA for adherence with the commingled investment vehicle and /or offering document guidelines.

Items of Interest: Liquidity - The manager stated due to the disruption in the financial markets related to COVID-19, the American Core Realty Fund restricted redemptions for the 2Q 2020 and paid a portion of timely redemption requests on July 2, 2020. Unpaid portions of timely redemption requests will be considered for September 30, 2020. **Personnel Change** - The manager stated during 2Q 2020, Sabrina Unger was made a member of the Investment Committee sharing the Research position. **Personnel Departure** - The manager stated later in the quarter, Chris Macke who shared the Research position on the Investment Committee left the firm.

Commission Recapture Provider

- Cowen and Company, LLC.
- On April 3, 2017, Cowen Group announced the signing of a definitive agreement to acquire ConvergeEx Group. IPS contacted John Seyler at ConvergeEx to discuss the transaction. Per ConvergeEx, there will be no impact to existing ConvergeEx clients and a consent to assignment is not required. The transaction closed on June 1, 2017. Following the acquisition, the name changed to Cowen Execution Services, LLC.
- The Fund's commission recapture provider, ConvergeEx Group, was recently purchased by Cowen, Inc. As a result of this transaction, ConvergeEx's Plan Sponsor Division, renamed Cowen Execution Services, LLC, will be moved into Cowen and Company, LLC. The Fund may have received correspondence from Cowen regarding "assignment" of the current agreement with Cowen Execution Services to Cowen and Company. IPS has been in contact with Cowen and recommends that the Fund agrees to the assignment. The notice sent by Cowen is structured as a negative consent; therefore, agreeing to the assignment requires no action.
- IPS previously evaluated the benefits of ongoing participation in a commission recapture program and suggested Funds continue to participate in them. To potentially enhance the managers' utilization of the commission recapture program, in July, 2019, IPS provided draft notices to the Fund Administrator to send to the investment managers.

Custody Bank

- The current custodian is PNC Bank.

Investment Policy Statement

- The current investment policy statement was adopted and signed on June 8, 2018.

Commingled Funds

- Commingled Fund: Due to the commingled fund structure, IPS does not monitor the holdings within the commingled fund for compliance with the client's investment policy statement. The commingled fund is governed by its own investment policy. However, all investment managers have verified that the portfolio and individual holdings are currently, and have been during the past quarter, in compliance with the firm's commingled investment vehicle guidelines and/or offering document governing the management of the investment.

Glossary of Investment Terminology

Total Return	The annual return on an investment including appreciation, depreciation and income (interest, dividends, net operating income).
Alpha	The excess return (positive or negative) generated by active portfolio management and security selection, relative to a benchmark.
Beta	A historical measure of an investment's volatility relative to the market. The beta of the market is 1.0 (as represented by a benchmark such as the S&P 500 Index). A beta of greater than 1.0 indicates an investment with greater volatility than the benchmark. A beta of less than 1.0 indicates less volatility than the benchmark.
Standard Deviation	Standard deviation is a statistical measurement of the dispersion of a set of data from its mean. The more spread apart the data are, the greater the standard deviation.
Risk	For an investment portfolio, risk is typically defined as the volatility of the returns, as measured by calculating the standard deviation. The risk does not necessarily indicate the risk of loss, but does indicate the risk of inconsistent returns.
Capture Ratio	Calculates how well a manager performs in a rising or falling market as a percentage of a benchmark. In a rising market, a percentage of 100 or better is preferred, and indicates the manager exceeded the benchmark (upside capture ratio). In a falling market, a percentage of less than 100 is preferred, indicating that the manager lost less than the benchmark (downside capture ratio).
Correlation	A statistical measure of how two asset classes perform in relation to each other. Asset classes with a correlation of 1.0 have perfect positive correlation (exactly the same). Assets with perfect negative correlation of -1.0 will perform equally but in opposite directions.
Efficient Frontier	A series of portfolios with the maximum expected return for any level of risk, which is calculated based on assumptions of risk, return and correlation. These portfolios are shown graphically on a risk and return chart, and represent the most efficient tradeoff between risk and return.
Market Cap	The dollar value of a corporation, which is calculated by multiplying the share price and the number of outstanding shares.
Large Cap	Stocks which typically have a market capitalization of \$10 billion or higher.
Mid Cap	Stocks which typically have a market capitalization of \$2 to \$10 billion.
Small Cap	Stocks which typically have a market capitalization of \$2 billion or less.
Geometric Calculation	Geometric Calculations are used when determining an annualized investment return and tends to dampen the effect of very high or very low values. The result is a number that is smaller than (or equal to) the arithmetic average of the values.
Compound Annual Returns	Compound annual returns show the annual investment return, assuming the investment grew at a constant rate, and reflects the impact of the time in the calculation of an investment return.
Return/Risk Ratio	The return/risk ratio is the expected return of an investment divided by the expected standard deviation (risk). When comparing return/risk ratios a higher value is presumed to be better than a lower value
