

# Actuarial Update for Industry and Local 338 Welfare Fund

Prepared for the Board of Trustees

Michele Domash, FSA, MAAA  
Amul Shah, MD, ASA

May 23, 2025

# Actuarial Topics

- **Recap of recent renewals**
  - Stop Loss
  - Anthem
- **Exploring dental options**
  - Current dental vendor
  - Consider going to market
- **Financial update**
  - Cheiron *H-Scan* projections

- Cheiron removed commissions from the process, generating savings of (\$19,646).
- The net increase of 10% for this policy is good value to retain the same stop loss attachment point.
- Also, no lasers apply, which means full insurance coverage for the plan.

| Summary of Stop Loss Renewal Rates: Tokio Marine                     |                                                 |                                                       |

| Premium Dollars Estimated to Buy Fully Insured Stop Loss Coverage    |                                                 |                                                       |
| Estimated Premiums with Commissions (Prior Actuary Basis)            | \$246,212                                       | \$290,462                                             |
| Savings to the Plan by Removing Commissions (via Cheiron)            |                                                 | (\$19,646)                                            |
| Estimated Premiums with No Commissions (via Cheiron)                 | \$246,212                                       | \$270,816                                             |
| Difference in Premiums from Current Rates after Removing Commissions |                                                 | \$24,604                                              |
| Expressed as a % of Premium to Carrier                               |                                                 | 10.0%                                                 |

- Cheiron negotiated a two-year agreement to lock-in the 2% rate increase that had been applied recently.
- Inflation is volatile and having this risk stabilized is good for the Fund.

**JAA Administration Fee Per Plan Participant\* Per Month:**

**Fee Agreement Period**

**05/01/25 - 04/30/26**

**\$18.73**

**05/01/26 - 04/30/27**

**\$19.10**

\* Plan Participant is each family member under the plan.

- Anthem JAA network and administration fees for the upcoming year 2025-2026 are estimated to be \$65,180 (using 290 participants).

# Focus on Dental Benefits and Options

- The plan ancillary benefits for dental, vision, disability and life insurance as part of the benefits program.
- We believe that these programs have all been in effect for many years.

| Other Benefits                                                                                                          | Description                                                                                                                                                                                                                   |

Source: SPD 2006  
May 23, 2025

- Current dental plan has been in place for decades
  - “Scheduled benefits”
  - Plan pays a dollar amount, and the patient pays the excess
- No network has been offered to members
  - No in-network or out of network options when choosing a dentist
    - The dentist charges their rates with no negotiations with the dental vendor
  - Member pays more than if a network was offered and the member chooses the network

| Example                                            | Regular Dental Exam - Preventative |
|----------------------------------------------------|------------------------------------|
| Dental Plan Provider Charges – No Network Discount | \$53 (on Average)                  |
| Plan Payment                                       | \$22                               |
| Patient Pays                                       | \$31                               |

- Increase the schedule of benefits for preventive and basic services
- Add a network but continue to offer out-of-network coverage too

|                                       |                              | Member Examples |             |                          |             |                   |             |
|---------------------------------------|------------------------------|-----------------|-------------|--------------------------|-------------|-------------------|-------------|
|                                       |                              | Current Plan    |             | Add Premier Plus Network |             | Add MetroDent Max |             |
|                                       |                              | If InNetwork    |             | If InNetwork             |             | If InNetwork      |             |
| Preventive Services                   |                              | Plan Pays       | Member Pays | Plan Pays                | Member Pays | Plan Pays         | Member Pays |
| '00120                                | PERIODIC ORAL EXAMINATION    | \$ 22.00        | \$ 31.59    | \$ 24.00                 | \$ -        | \$ 25.00          | \$ 5.00     |

| Add a network to the plan using Premier Plus  |                                                                            |                                        | 35%                                   |                 |                               |            |
| Option B                                      | 100% for preventive care and basic services; no changes for other services | \$ 7,263                               | \$ 17,788                             | \$ 68,609       | \$ 25,050                     | 58%        |
| Add a network to the plan using MetroDent Max |                                                                            |                                        | 35%                                   |                 |                               |            |
| Option C                                      | \$5 copay preventive, \$20 copay basic                                     | \$ 6,070                               | \$ 17,370                             | \$ 66,999       | \$ 23,440                     | 54%        |

- This is a special analysis not conducted for many years. Cheiron is able to offer special study options as below:
  - **Study Option A:**
    - Work with the current vendor to improve plan costs, add a network and reduce member costs
    - Cheiron fees: \$6,000 to \$8,000
  - **Study Option B:**
    - Consider a focused market check for other networks and options
    - Cheiron fees: \$6,000 to \$8,000
  - **Do both of the above studies if needed**
- Given the size of plan expenditures, these are large amounts. However, this type of study is not conducted frequently and is a longer-term plan investment.

# H-Scan Projections and Financial Status

- Stable but some declines
  - ❑ **136** average in the first six months of 2024
  - ❑ **123** enrolled January 2025
- No COBRA elections
- Average age of subscribers is **age 49**

Assets do not subtract IBNR in this preliminary analysis.

This scenario assumes lower trends and still continues to show a gradual decline in the reserve months.

May 23, 2025

## Observations and Commentary

- Continued increases in contributions is needed as with any fund to address ongoing inflation and cost of health care.
- Current year ending June 30, 2025, is estimated to be a deficit with revenues not covering expenditures with low investment yields.
- With increase in contributions, break-even status can be achieved, however, reserve status is declining.
  - Key question is whether the fund has a defined reserve goal
- Improving the member experience with the dental options brings more value to this benefit program.

*The purpose of this presentation is to assist the Industry and Local 338 Welfare Fund (the “Fund”) in assessing the ongoing financial status of the fund and providing a wholistic view of emerging experience . It is intended for the exclusive use of the Fund. Other users of this presentation are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to such other users.*

*In preparing our presentation, we relied on information (some oral and some written) supplied by the Fund, as well its administrators and business partners. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.*

*In projecting results, we have smoothened experience using a 50/50 weighting of the last two years of experience; final projections will reflect the final methodology as we gather additional information.*

*This presentation and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board as well as applicable laws and regulations. Furthermore, as a credentialed actuary, I meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this presentation. This presentation does not address any contractual or legal issues. We are not attorneys, and our firm does not provide any legal services or advice.*

Michele Domash, FSA, MAAA  
Principal Consulting Actuary

- In-Network coverage is comprehensive.
- The plan steers to in-network coverage with higher deductibles and cost sharing for out-of-network coverage.
- Rx applies a 15% coinsurance and uses SaveOnSP for specialty Rx.
