**RESOLVED that the minutes of the regular meeting held on
March 10, 2023, are approved as presented.**

II. INVESTMENT REVIEW

A. Investment Consultant Report

The Trustees welcomed Barry Bryant of Dahab Associates to the meeting.

Mr. Bryant noted at the outset that he would discuss the Manning & Napier report due to a conflict that prevented Rich Cartier from attending the meeting. He then reviewed the "Printing Local 72 Pension Performance Review March 2023" report with the Trustees, a copy of which is filed with these minutes. Mr. Bryant noted GDP declined to 1.1% in the first quarter of 2023 while unemployment remained the same at 3.5%. The Fed Funds rate is at 4.7%. Domestic and International Equities continued to see gains in the first quarter of 2023. Growth outperformed value across all market capitalizations. During the first quarter of 2023, fixed income markets delivered solid returns. The U.S. Aggregate Bond Index gained 3.0%.

As of March 31, 2023, the Fund's market value of assets was \$5,548,466, representing a decrease of \$261,134.00 from the December ending value of \$5,809,807. The account recorded a net withdrawal of \$603,459, which overshadowed the Fund's net investment return of \$342,118. Income receipts totaling \$27,241 and realized and unrealized capital gains of \$314,877 combined to produce the portfolio's net investment return.

During the first quarter of 2023, the Manning & Napier portfolio produced a gain of 6.2%, which was 0.8% above the Fund's performance benchmark's, the 55% S&P 500 / 45% Aggregate Index, return of 5.4% and ranked in the 2nd percentile of the Taft-Hartley universe. Over the trailing year, the portfolio returned -4.7%, which was 1.4% better than the benchmark's -6.1% performance and ranked in the 57th percentile. Since March 2013, the account returned 7.6% per annum and ranked in the 24th percentile. For comparison, the Fund's benchmark returned an annualized 7.5% over the same period.

The Fund's asset allocation at the end of the first quarter was 51.1% to large cap equities, 48.1% to fixed income, and 0.7% held in cash.

B. Special Financial Assistance ("SFA") Investment Strategies

Mr. Bryant noted that Pension Benefit Guaranty Corporation ("PBGC") guidance requires SFA assets to be invested in specific types of investments and that PBGC's final guidance provided room for certain types of investments that were not permitted under PBGC's proposed guidance. Mr. Bryant stated that the liability driven investment ("LDI") strategy that focuses on matching assets with current and future liabilities helps to manage risk and is being used by many Plans that

have received SFA assets. He informed the Trustees he will provide several investment strategies that could be used as investment vehicles for the SFA funds at the next Board meeting.

The Trustees thanked Mr. Bryant for his presentation.

III. ADMINISTRATIVE MANAGER'S REPORT

A. Financial Statement

Ms. Welch reviewed the Administrative Managers Report for May 2023. The report for the period ending May 31, 2023, indicated total income of \$514,644 and total expenses of \$906,970, resulting in a net loss of \$392,325. The Fund's net assets as of May 2023 were \$6,413,611.83.

On Motion made and seconded, the Trustees voted unanimous approval of the following resolution:

RESOLVED to approve the May 31, 2023, Financial Report as presented.

B. Delinquency Report

There are no delinquent employers to report.

C. Withdrawal Liability

The Trustees reviewed the Withdrawal Liability reports included in the meeting booklet.

D. Invoices

Ms. Welch presented a list of invoices paid from March 1, 2023 to May 31, 2023. She noted that there were no additions, deletions or changes to the list.

On Motion made and seconded, the Trustees voted unanimous approval of the following resolution:

RESOLVED to approve the invoices paid from March 1, 2023 to May 31, 2023, as presented.

IV. FUND ACTUARY REPORT

The Trustees welcomed Mr. Brian Hartsell from the McKeogh Company to the meeting.

A. Actuarial Certification

Mr. Hartsell informed the Trustees that the Actuarial Certification for the Plan Year 2023 was filed timely. The Fund was again certified as being in critical and declining status for the March 1, 2023

through February 29, 2024 Plan year. The Fund's funded percentage as of March 1, 2023 was 14.7%, a decline from the 2022 funded percentage of 19.5%. The Fund is projected to become insolvent during the Plan year beginning March 1, 2025.

B. Special Financial Assistance ("SFA")

Mr. Hartsell informed the Trustees that McKeogh is in the process of completing a revised SFA application and will be resubmitting the application with the information required by the PBGC by next week. Mr. Hartsell advised that after the revised application is filed, the PBGC must respond to the application within 120 days of the filing date. Mr. Hartsell noted the Plan requested SFA in the amount of \$38,733,637 on the initial application.

Mr. Hartsell discussed the benefit of the LDI strategy for SFA assets discussed by Mr. Bryant. He noted LDI strategies can be customized and tailored to the cash flow profile and risk exposures of the Fund.

Ms. Welch noted the SFA assets and earnings must be segregated from other Fund assets. After a discussion the Trustees directed Ms. Welch to open a bank account that the SFA assets could be transferred to when received.

Mr. Hartsell noted the SFA assets and earnings can only be used to make benefit payments and pay plan expenses.

The Trustees thanked Mr. Hartzell for his report.

V. FUND COUNSEL REPORT

Mr. Szewczyk provided an update to the Trustees regarding the letter that was sent to Benesys, the company that acquired the Fund's former third-party administrator, Carday, demanding that they make the Fund whole for the overpayments that were made in error due to miscalculations by Carday. Mr. Szewczyk informed the Trustees he has a conference call scheduled for July 17, 2023 with the Counsel for Benesys. He noted they requested copies of all communications related to the overpayments that were sent to Benesys since the contract with Benesys was terminated. He informed the Trustees that they would be informed if a proposal was received or if any action is needed.

- **Clearly Defined Information Security Roles and Responsibilities** – The Vendor has specified employees which are placed in charge of handling Cybersecurity for their Funds and those employees understand their job responsibilities.
- **Strong Access Control Procedures**– The Vendor has implemented Two Factor authentication for any remote access into their environment and has implemented the principle of least privilege.
- **Vendor Due Diligence**– The Vendor is utilizing a third-party cloud service provider and is performing their vendor due diligence by annually reviewing their security controls by asking for a SOC 2 type II report or sending out a questionnaire verifying they are following security best practices.

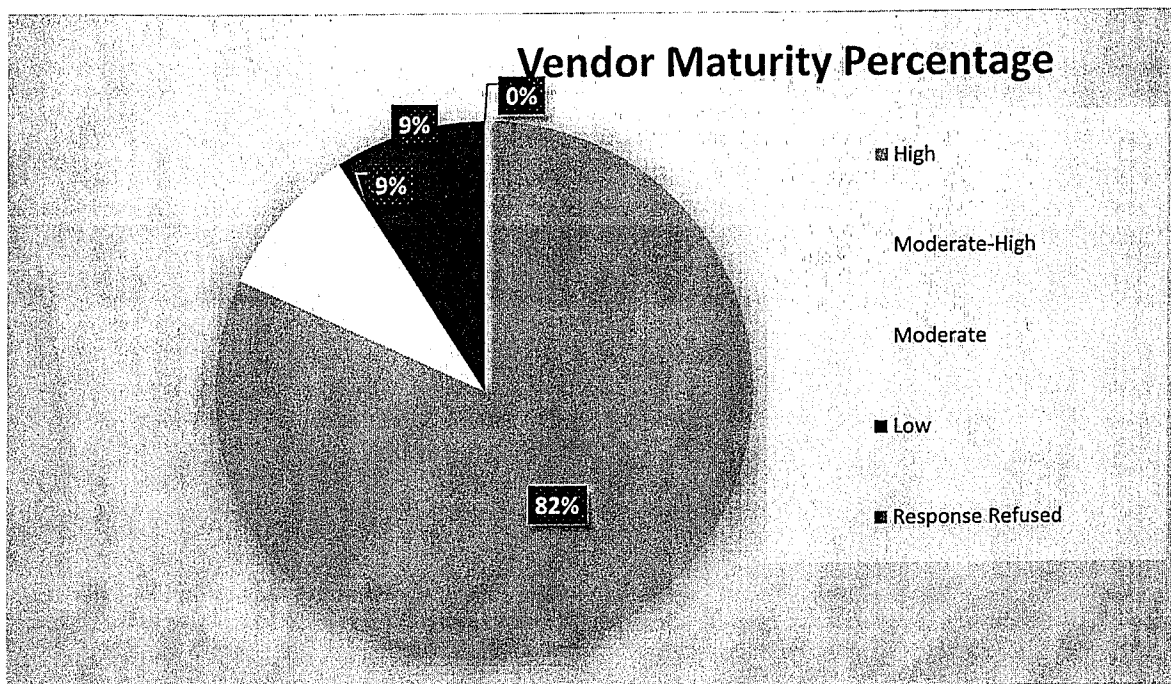

- **Annual Cybersecurity Awareness Training** – The Vendor is enforcing annual Cybersecurity Awareness training for all employees. The training includes anything new on the annual Risk Assessment report and a periodic Phishing test.
- **A Software Development Lifecycle** – The Vendor has a Software Development Lifecycle for their custom developed Software, or they do not have one because they do not custom develop software. In which case, this requirement cannot be applicable.
- **Disaster Recovery and Business Continuity Plans** – The Vendor has formalized Disaster Recovery and Business Continuity Plans in the event of a disaster event.
- **Encryption of Sensitive Data at Rest and in Transit** - The Vendor is properly encrypting all sensitive data stored on systems and being sent over a network connection.
- **Security Best Practices and Technical Controls** - The Vendor is implementing security configuration best practices (Password controls, proper access controls, etc.) and proper security appliances (firewalls with IDS/PS, web content filter, Antivirus/EDR, etc.).

EXECUTIVE SUMMARY

In total, we reviewed **11** Vendors. Each vendor was given a qualitative risk ranking of High Maturity, Moderate-High, Moderate Maturity, Low Maturity or Response Refused. Of the **11** vendors, the number of risks for each risk ranking is as follows:

Maturity Level	Total
High	9
Moderate-High	1
Moderate	0
Low	0
Response Refused	0

The chart below represents the total maturity percentage of the vendors assessed.

Based on the chart above, the majority of the Funds' vendors are at a High level of Cybersecurity Maturity. For those that are deemed Moderate, we believe the program is sufficient; however, would benefit from increased control implementation. Any Vendor ranked Low, the Funds should follow up with the Vendor and request they enhance their cybersecurity program.

HIGH RISK VENDORS

Below is a table to assist the Funds in identifying the vendors which did not respond or are a Low Level of Cyber Maturity and could be considered a Risk to the Funds.

High Risk Vendors	
Severity Rating	Vendor
Low Maturity	Dahab – Vendor was missing key controls. Specifically, we noted the following: • Vendor does not have a comprehensive set of information security policies to support a well-defined information security program. • A reliable and independent third party audit is not performed. The audit is performed by the IT Provider that also manages the network. • Penetration testing is not performed.

High Risk Vendors	
Severity Rating	Vendor
	• Data at rest is not encrypted. • Phishing testing is not performed. • A third party due diligence process does not exist. • Business continuity plan is minimal.

For the Vendor ranked Low Maturity, we recommend the Funds request that the Vendor have a third-party cybersecurity assessment performed by a reputable company. The report should identify all significant cybersecurity risks of the Vendor. The Vendor should establish a plan to remediate those risks. The Funds should obtain the finalized report and project plan established by the Vendor to obtain comfort in the established plan and resultant controls. Subsequent to the audit and remediation, the Vendor should commit to penetration testing by a reputable and independent third party.

ONGOING APPROACH

The initial year review as designed was sufficient to establish a baseline of maturity and risk across the Vendors in relation to the DOL Cybersecurity Guidance. The limitations of strictly going by the DOL Guidance, as we have learned, is it has a tendency to be broad and the vendor responses reflected that. We believe that this methodology is only effective for year one to establish the general baseline and also make the Vendors accustomed to the process and expectations. For many of the Vendors, it took a lot of back and forth to make them understand a generic and limited answer was not going to be sufficient for us and the expectations were higher than they perceived. A proposed approach for year 2 would be as follows:

- A detailed questionnaire should be created that lists very specific controls that should be implemented. Controls will be weighted based on criticality. Such a method will allow us to generate a quantitative scoring process for the Vendors. In addition, it will help advise Vendors of controls that we believe are critical and need to be implemented if not.
- For select controls, direct evidence will be required. As part of the process, it will be likely that they will request us and the Funds to sign an NDA. While this may delay the process as legal reviews will be necessary, we believe it is prudent to evolve the maturity of the program.
- Year 2 will allow for a more accurate scoring of maturity. Subsequent years, a more risk-based approach could be potentially used in which those not of High maturity are followed up with every year, while those of Higher maturity are assessed every other year.

The above is a risk-based approach to the Vendors. Should the Funds desire a full review every year or have a different proposed method, we will accommodate accordingly, should we continue to assist the Funds.
