The investment strategy utilization is based on all participants that have a balance greater than \$0. Each participant is assigned a single investment strategy to provide insights on how investment options, features, and services are being utilized.

When a participant is assigned a strategy, 100% of their balance is grouped within that strategy even if they have a diverse investment mix. Additionally, each participants' strategy is reevaluated and assigned every month so a participant may move in and out of the different strategies from month to month.

For the full list of investment strategies and their definitions, please refer to the glossary.

Glossary of terms

Subject	Description
Balances	Participant assets is the summation of all participant balances. (Excludes any loan balances). Plan assets is the summation of all plan balances such as forfeitures. Total assets is the summation of all participant and plan balances.
Benchmarks	The benchmarks are based on the recordkeeping system book of business and are updated monthly. The benchmarks reflect the median of individual plan results for a population of similar plans based on the combination of plan type and plan assets. The plan type categories are: 401(k), 403(b), 401(a), 457, and all other plan types combined. The plan assets ranges are: <\$5M, \$5M - \$10M, \$10M - \$25M, \$25 - \$50M, \$50M - \$500M, and >\$500M.
Cash flow	Cash flow illustrates the inflows and outflows of dollars from the plan by all actively employed and separated from service participants. The difference in the beginning balance and the ending balance is the result of adding and subtracting the following cash flow activity events: Contributions, disbursements, participant fees, loans issued, loan payments, transfers, adjustments, dividends, and gain/loss to reflect the ending balance.
Contribution activity	Contribution activity reflects all new participant account money such as: contributions via payroll, one-time contributions, employer contributions, and rollovers. Contributions are illustrated as participant and employer funded. Participant contributions are further broken down by before-tax, Roth, and after-tax contributions when applicable. The contribution activity will match the contribution totals illustrated on the Cash Flow slide.
Distribution activity	Distributions are based on actively employed and separated from service plan participants. The distribution categories are derived from the methods in which assets are removed from the plan. The possible categories are: Deminimis, Hardship, Death, Housing allowance, In-service, QDRO, Required minimum distributions (RMD), Separation of service, Service credits, CARES Act, SECURE Act and Other*. *"Other" is a combined category for infrequently used distributions such as but not limited to: contract exchanges, disability, 1035 exchanges, defined benefit payout, dividend payment, early distribution penalty, transfer to an IRA, Roth conversions, etc. The category also includes transaction reversals.
Loans	Overall loan insights reflect both general purpose loans and principal residence loans. Loans belonging to both actively employed and separated from service plan participants are included. Active loans in default are included. The total amount of outstanding loans includes any loans that were issued during the month of the reported month-end. The average loan balance is calculated by dividing the total of all active and outstanding loan balances by the total number of active and outstanding loans. The percent of participants with a loan is calculated by dividing the number of participants with at least one active and outstanding loan by all participants with a balance greater than \$0.

Glossary of terms

Subject	Description
Lifetime Income Score	The Lifetime Income Score is based on all actively employed and eligible participants that meet the following criteria: Date of birth on file, valid annual salary of at least \$10,000, and assets from outside sources that are less than \$5 million. The Lifetime Income Score assumes a retirement income replacement rate of 75% of current income for all participants or a different plan-chosen replacement rate when applicable. Assumptions used by the Lifetime Income Score change over time so the historical results provided may be based on assumptions that are different from the current period. For more information please see the Lifetime Income Score Important Information and Disclosure located on the Data Library dashboard in the Plan Service Center.
Participation rate	The participation rate represents the ratio of participants that are actively participating in the plan compared to the total population of actively employed participants that are eligible to contribute to the plan. Actively participating is defined as having a regular deferral election on the recordkeeping system that is greater than 0%/\$0. Before-tax, Roth, after-tax, and catch-up deferral elections are included.
Contribution rates	Contribution rates are based on all actively employed and eligible participants that have a regular deferral election on the recordkeeping system that is greater than 0%/\$0. Before-tax, Roth, after-tax, and catch-up deferral elections are included. The rates reflected always include percentage deferral elections. Flat dollar deferral elections are also included when a salary has been provided as a participant's salary is used to convert their flat dollar deferral election to a percentage election.
Money type utilization	Money types are the different kinds of regular contributions that can be made which differ from each other in how they are taxed. Money type utilization illustrates the different approaches that participants are using for managing the tax treatment of their future contributions. Each included participant is assigned to a single money type category and becomes part of the population of participants that their respective category's insights are based on. Refer to the contribution rates section above for details about how reporting on deferral elections is handled. The money type categories are: • Before-tax only: Population of participants where 100% of their deferral election is setup to make before-tax contributions. • Roth only: Population of participants where 100% of their deferral election is setup to make Roth contributions. • After-tax only: Population of participants where 100% of their deferral election is setup to make after-tax contributions. • Multiple types: Population of participants that have a deferral election setup to make contributions to two or more sources.

Glossary of terms

Subject	Description
Contribution insights	Contribution insights consider regular and catch-up payroll contributions that participants made to before-tax, Roth, and after-tax sources during the month associated with the stated month-end date. The population of participants that are evaluated are those that were eligible as of the stated month-end. This population of participants differs from those included in the contribution activity reporting as that reporting includes contributions for all participants regardless of their eligibility status at month-end.
Match behaviors	Match behaviors illustrates participants that are eligible for employer match and the different levels at which they are utilizing their available match benefits. It only includes match benefits where the employer chooses to make an established contribution that is based on the elective contributions that a participant makes. This excludes non-elective employer contributions that do not require the participant to make a contribution. Each participant is evaluated against the match rule that individually applies to them as a single plan can have multiple match rules that cover different populations of eligible participants. The evaluation is based on a participant's deferral elections on file. Percentage deferral elections are always included and flat dollar deferral elections are also included when a salary has been provided as a participant's salary is used to convert their flat dollar deferral election to a percentage election. Participants with flat dollar deferral elections but without a salary are excluded from the analysis. Included participants are assigned to one of the following match behaviors: • Not contributing: Is eligible to contribute and to receive employer matching contributions but does not have a deferral election greater than 0%/\$0 on file. • Missing out: Has a deferral election on file but it is below the amount required to receive the full amount of their available match benefit. • Meeting the match: Has a deferral election on file that is the same amount that is required to receive the full amount of their available match benefit. • Exceeding the match: Has a deferral election on file that is higher than the amount required to receive the full amount of their available match benefit.
Rate of return	Rate of return is calculated in 1 month intervals based on the opening balance, transaction activity, and closing balance for the month. The calculation is consistent with the procedures called by the participant website for displaying a participant's rate of return for a 1 month period. Determining the 1, 3, and 5 year returns is achieved by using an aggregation of the individual monthly rates of return for that period. Only participants with a result across all of the months in the period are included.

Subject	Description
Investment strategy	Investment strategy includes all actively employed and separated from service plan participants with a balance. Each participant is assigned to a single investment strategy by evaluating the criteria for each investment strategy against the participant’s fund balances and their use of investment services and features. This evaluation is done in a particular order and the investment strategy that ends up being assigned is the first one that has its criteria met. The evaluation order and criteria for each possible investment strategy is as follows: • Managed accounts: Assigned to any participant enrolled in an available managed account service. • Online advice: Assigned to any participant utilizing an available online advice service. • Asset allocation model strategy: Assigned to any participant enrolled in a model portfolio. • Brokerage: Assigned to any participant utilizing an available self-directed brokerage account for any portion of their balance. • Target-date strategy: Assigned to any participant with greater than 95% of their balance invested in one or two target-date funds. 5% of their remaining balance may be invested in funds in other asset classes. • Risk-based strategy: Assigned to any participant with greater than 95% of their balance invested in one or two risk-based funds. 5% of their remaining balance may be invested in funds from other asset classes. • Do-it-yourself strategy: Assigned to any participant that is not classified under any of the above investment strategies. When applicable, the number of participants and their associated total balances that are assigned to the Target-date strategy or the Risk-based strategy will not match the assets and participant counts reported elsewhere for the funds within the Target-date or Risk-based asset classes. This is because all fund reporting is based on the holdings of all participants, regardless of a participant’s assigned investment strategy.
Equity exposure	A participant’s total equity exposure is the ratio of the total amount of their balance (across all investment options) that is exposed to equities, compared to their overall account balance. The amount that is exposed to equities for each individual investment option is calculated by multiplying the participant’s balance within the fund by the percentage of the fund’s underlying holdings that are in equity asset classes. The underlying asset allocation of each investment option is sourced from Morningstar LLC. In the event that an investment option’s asset allocation is unavailable, it is defaulted to having 50% allocated to equities.

Subject	Description
Concentrated investment extremes	The concentrated investment extremes insights presented are based on all actively employed and separated from service plan participants that have a balance greater than \$0 and that have been classified as using the Do-it-yourself investment strategy. Concentrated investment extremes are defined as: Equity risk: Participants that are age 50 or older and that have 75% or more of their total balance exposed to equities. • These participants may be inadvertently over-exposing themselves to too much equity (or market) risk, causing them to be vulnerable in market downturns or times of general volatility, a risk particularly harmful to those nearest retirement. Inflation risk: Participants of any age, that have 10% or less of their total balance exposed to equities. • These participants may be too removed from the market. While taking on too much risk, as illustrated with the equity extreme definition, can be detrimental to participant outcomes, the inverse can also be true. Participants underexposed to equities (or the market more broadly) can suffer from lack of investment returns which would otherwise bolster their performance and account balance growth.
Advisory services	Advisory services includes all active and terminated participants with a balance. It compares the participants enrolled in the managed account service or online advice service against the participants that are not enrolled as of the last day of the reporting period. Each participant is only included in one group.
Fund exposure by investment strategy	The calculation for an individual participant's exposure to an investment option is: Participant's balance in the investment option divided by the participant's overall account balance. Participants without a balance in a fund are excluded when calculating the average for each fund. Average fund exposures are provided for the population of participants within each investment strategy to provide insights into how participants of each investment strategy are utilizing the investment lineup.
Asset allocations	Illustrates the total of participant balances within the different investment options and their associated asset class. Plan level assets and outstanding loan balances are not included. The % of total assets represents the total of participant assets within the fund divided by the total of all participant balances. The participant counts include all actively employed and separated from service plan participants with a balance greater than \$0 in the fund.
Net transfer activity by asset class	Net transfer activity is the net of the transfer in and transfer out financial activity for funds within each asset class. Plan level assets and outstanding loan balances are not included.

As of November 30, 2024

Introduction

This report will help you as plan fiduciaries better understand the costs associated with your retirement plan - for both you as a plan sponsor and for your plan participants. The report is designed to meet the ERISA fee disclosure regulations of the United States Department of Labor (DOL).

We have summarized the plan cost components, and have provided a description of the services provided for those costs. We feel that the more you know about the costs in your plan - including all fees and expenses - the better you will understand the value of Empower.

Fee transparency is a sponsor and participant right

Sponsors and participants are entitled to clear information about the fees and expenses associated with their retirement plans.

Fee transparency is integral to meeting fiduciary responsibilities

We believe that understanding the relationship between cost and benefit is a crucial part of a plan sponsor's fiduciary responsibilities.

ERISA Requirements

DOL regulations require certain service providers that receive more than \$1,000 in compensation to make explicit disclosures to certain retirement plans that they serve. For more information, please visit the DOL Employee Benefits Security Administration's website (www.dol.gov/ebsa).

What This Report Contains

This report provides an estimate of the fees paid by your plan.

As your plan's Recordkeeper, we may make payments to other plan service providers on behalf of the plan. We are not responsible for the disclosures of any unrelated service providers.

This document begins with a high-level summary of the estimated fees and becomes detailed throughout each section. All the information shown is in dollar figure estimates, where appropriate. To simplify readability, superscript letters identify dollar figures that carry over from one section and appear in another section as a line item.

Some of the services and fees described may not be applicable to your plan but are representative of available services.

A. Summary of Fee and Expense Estimates

Estimates presented are based on information as of November 30, 2024 on the following:

Total Assets	\$52,185,148
Unallocated Plan Assets	\$138,486
Participant Assets	\$52,046,662
Loan Balances	\$0
Number of Participants	3,151

As the fees and expenses contained in this disclosure are estimates based on the above information at a point in time, they will not necessarily match the actual amounts paid or the amounts contained in any financial report, such as an Annual Plan Summary.

Total Assets are the sum of Unallocated Assets, Participant Assets and Loan Balances. **Plan Unallocated Assets** consist of plan assets that are not allocated to plan participants. This might include unclaimed participant balances, amounts received but not yet allocated to participants, forfeitures, and amounts set aside for plan expenses. **Participant Assets** are amounts held in participants' accounts. **Loan Balances** equal the outstanding loan amounts for participants. **Number of Participants** includes participants with an account balance as of the month-end.

In this document, estimates provided may not match amounts billed to the Plan Sponsor or debited from participant accounts and may not match financial reports. These **annual estimates** are generally based on month-end projections that are annualized over a 12-month period and rounded to the nearest dollar.

D. Disclosures

This document contains estimates of plan expenses and is intended to provide a detailed summary of fees being charged to the plan or its participants to the extent such information is in the Recordkeeper's possession. While it is intended to provide information regarding all material fees, this document may not be comprehensive, and it may not include full information on fees associated with some specially negotiated services or with certain investment options, such as Self-Directed Brokerage Accounts, Life Insurance, Employer Stock, etc. For further fee information, please refer to the relevant service agreements and/or prospectuses, including information that may be needed to comply with Participant Disclosure obligations. As your Recordkeeper, we make no representation as to the completeness or accuracy of materials, such as prospectuses, created and/or provided by a third-party investment provider.

Additional Compensation Paid to Recordkeeper for Correction of Transactional Errors:

Participant and Plan Transaction Errors. If the Recordkeeper does not accurately process contribution or investment instructions provided in good order by a Participant or the Plan Sponsor (e.g., investment allocation of Plan contributions, investment exchanges or transfers) or does not accurately process a Plan transaction as instructed by a Participant or directed by the Plan Sponsor (e.g. timely processing a Plan distribution or processing a Participant's direct rollover request as a lump sum) and the issue is timely brought to the Recordkeeper's attention, Empower will, at its own expense, retroactively correct the error by adjusting the Participant's account to the financial position where it would have been, adjusted for earnings and reduced by any losses, had the error not occurred.

Trading Gains. If Empower does not accurately process a trade with the mutual fund company as directed by the Plan Sponsor or as instructed by a Participant, then the Recordkeeper will correct the share position at the mutual fund company as if the error had not occurred. In the event there are multiple funds involved, the Recordkeeper will net gains and losses across all funds involved.

If a correction to adjust the Participant's account to the financial position where it would have been if the error had not occurred is made at the Recordkeeper's expense and results in a transactional net loss, the Recordkeeper will bear the transaction loss. However, if the correction results in a transactional net gain, the Recordkeeper will retain the transaction gain as compensation for services provided to the plan and to defray costs of servicing the plan.

Float Disclosure:

If the Plan's assets pass through a bank account held by Empower Retirement LLC. (Empower) or its affiliates/subsidiaries (Empower Trust Company, LLC), it may earn credits and/or interest on Plan assets awaiting investment or pending distribution. Plan Sponsor acknowledges that it has received and reviewed the Float Disclosure. Plan Sponsor agrees that, as additional compensation for its services hereunder, ETC, Empower, and/or its affiliates shall retain float consistent with the terms of the Float Disclosure.

Actuarial and/or Plan Consulting Services:

This category describes certain actuarial and/or consulting administrative services provided to the Plan Sponsor, including but not limited to preparation of the Plan's annual ERISA funding valuation report with required employer contributions, actuarial certification of the Plan's funded status, annual PBGC premium filings and preparation of Schedule SB/MB to the Form 5500. In addition, we may make certain other consulting services available to the Plan Sponsor related to the design, management or financial impact of the Plan. These consulting services may include for example, accounting measurements, asset/liability modeling, funding strategy, regulatory changes, merger and acquisition, plan design, nondiscrimination testing and certain plan termination services. Due to the variable nature of service arrangements, for more information on the services and fees specific to the Plan, please see your service agreement.

Mutual Fund Expense Ratio & Collective Investment Trust (CIT) Expense:

The Service Provider has entered into agreements with certain mutual funds/CITs (or their service providers, including advisors, administrators or transfer agents, and underwriters) whereby the Service Provider provides shareholder and/or distribution services and receives compensation from the mutual fund/CIT (or their service providers) based on the value of the plan's investment in the fund/CIT. This compensation may include fees for administrative and other expenses and/or fees paid under a plan of distribution under SEC Rule 12b-1 ("12b-1 fees"). The fees received by the Service Provider are included in the expense ratio described in the applicable fund's prospectus or similar disclosure document, and reduce the investment option's net asset value (NAV). Generally, fees and expenses included in the expense ratio are deducted at regular intervals based on a percentage of the investment option's average daily net assets. For CITs, an investment company may include other fees that are not disclosed in this fee disclosure document but are provided in a separate disclosure under separate cover.

Redemption Fees:

Redemption fees are charged by mutual fund companies to discourage investors from making a short-term "round trip" (i.e. a purchase, typically a transfer, followed by a sale within a short period of time). Most mutual fund companies that charge redemption fees will impose the fee upon the purchase and subsequent sale occurring within a specified time frame. Please refer to your mutual fund prospectuses for specific redemption fee details.

Additional Fund Compensation:

The Service Provider may receive additional revenue as a finder's fee from non-affiliated fund companies as shown in the prospectus and other regulatory documents for each of the funds held by the plan.

Empower Annuity Insurance Company of America ("Empower") receives payments from some investment fund families through the Empower Fund Partnership Program ("EFPP"). Under the EFPP, fund families receive several services based on the EFPP tier in which they participate. These services are provided directly to fund families and include: (i) consideration for inclusion in Empower products developed for some segments of the retirement and IRA market, (ii) inclusion on the Empower Select investment platform, which is available in the small plan recordkeeping market, (iii) a waiver of the connectivity fee described below, (iv) enhanced marketing opportunities, (v) additional reporting capabilities, (vi) collaboration in thought leadership opportunities, (vii) access to meetings with Empower leadership, Empower staff, and the third party advisory and brokerage firms through whom Empower distributes its services, and (viii) access to conferences put on by Empower. The yearly fees for EFPP participation are up to \$1,200,000 for tier 1 and up to \$600,000 for tier 2. These fees do not vary based on an Empower client's use of the funds offered by the fund family.

For additional information about fund families that participate in the fund partner program, please visit <https://docs.empower.com/advisor/Empowering-Fund-Partnership-Disclosure.pdf>.

Empower also receives payments from fund families through a connectivity program (the "Connectivity Program"). The Connectivity Program charges fund families for the cost of administering funds on Empower investment platforms, and for building and maintaining data connections between Empower and the fund family. Effective January 1, 2024, the Connectivity Program generally charges \$1200 per investment fund used on recordkeeping and IRA investment platforms. Additionally, a small or medium sized retirement plan may have an investment access fee of \$1,000 charged to the plan, if they select a fund that is not part of the Empower Fund Partner Program or Connectivity Program. Depending on plan selection of the non-participating fund family, the investment access fee charge may be more or less than the fees received under the Connectivity Program from the fund family.

Investment Access Fee:

Empower charges an investment access fee if the plan's fiduciary selects a fund for the plan's investment lineup from a fund provider that does not participate in the Connectivity Program, under which the fund provider compensates Empower or its related companies for costs associated with providing and maintaining the fund on the investment platforms (the "Investment Access Fee"). The investment access fee is a charge per plan of \$1,000 annually and is billed quarterly to the plan sponsor. On an annual basis, Empower will review all plans being assessed an investment access fee. If no investment access fee funds are being used, the investment access fee will not be assessed to your plan. If investment access fee funds are used in future years, or are added through fund changes, the investment access fee will be added or reinstated at that time. Empower reserves the right to change the Investment Access Fee, at any time, upon ninety (90) days' advance written notice to the plan sponsor.

Rollover Programs:

Empower may receive payments of up to \$35 per rollover under separate agreements with certain rollover providers (including Inspira Financial and WMSI Securities LLC) for providing transaction and administrative services. Any such payments are not fees for distribution services to the plan under the plan's administrative services agreement with Empower.

5500 Schedule C

As applicable, the disclosures herein are intended to satisfy the eligible indirect compensation ("EIC") requirements for Form 5500 Schedule C purposes.

Direct Compensation:

As your Recordkeeper, Empower tracks and reports all direct fee compensation (such as the standard fees and non-standard fees that are paid from plan assets during the plan year) as part of the plan-level reporting in your Annual Plan Summary. A detailed list of direct fees are provided in the Fee and Withdrawal report as well as summarized in the supplemental report section containing the Information for Completing Form 5500 Schedule C.

Indirect Compensation:

The listed expenses and costs are the types of eligible indirect compensation that may have been received either by (i) the Recordkeeper for their services or (ii) mutual fund companies whose funds are investment options in your Plan. The disclosures herein are intended to satisfy the EIC requirements for Form 5500 Schedule C purposes, as applicable.

Other Investment-Related Fees:

The investment funds offered by your Plan may have fees that are retained by the fund company or other investment provider as payment for ongoing management of the fund and other services. The fee amounts will vary from fund to fund and are generally charged as a percentage of the fund's value.

Please refer to the latest investment materials such as **prospectuses and other regulatory disclosures for each of the funds** held by your Plan (as provided by your Plan's investment advisor or directly from the fund companies or investment firms) for details regarding services and fees.

The latest prospectus and other regulatory documents for each of the funds held by the plan can be found within the Investment section of the Plan Service Center.

This list of investment fees is intended to give the plan a list of the most important fees being charged to the plan or its participants. It is intended to provide information regarding all material fees, but may not be comprehensive and may not include information on fees such as Self Directed Brokerage Accounts, Life

Insurance, Employer Stock, etc. For other fee information, please refer to all other plan documents including service agreement and/or prospectus, including information that may be needed to comply with participant Disclosure obligations. As your Recordkeeper, we make no representation as to the completeness or accuracy of materials, such as prospectuses, created and/or provided by a third-party investment provider.

Affiliates and Subcontractors

We are required to disclose certain fees paid between Empower Retirement LLC. (Empower) and its related parties (affiliates/subsidiaries and subcontractors). This includes compensation paid in connection with the services Empower or its affiliates/subsidiaries have agreed to provide to the Plan, if the compensation is set on a transaction/incentive basis (such as commissions, soft dollars, or finder's fees) or if the compensation is charged directly against a plan investment and reflected in the investment's net value.

The fees disclosed are not in addition to previously disclosed fees; rather, this information is intended to increase transparency about how Empower uses the fees it receives.

Affiliates:

The following entities are affiliates of the Recordkeeper, in that they directly or indirectly control, are controlled by, or are under common control with the Recordkeeper. These affiliates may receive fees from the plan, or from the Recordkeeper or another affiliate for performing certain services for the plan.

Refer to the Itemized Services and Cost section for details regarding affiliate payments.

Empower Financial Services, Inc. is an affiliate that receives payments from the Investment Provider. Payments are first paid to Empower Financial Services, Inc. which in turn pays the Recordkeeper.

Affiliates: The following are affiliates or subsidiaries of Empower Retirement LLC. (Empower), but not all Empower affiliates or subsidiaries may pertain to your Plan.

- Empower Advisory Group, LLC
- Empower Financial Services, Inc.
- Empower Retirement, LLC
- Empower Capital Management, LLC
- Empower Funds, Inc.
- Empower Annuity Insurance Company
- Empower Trust Company, LLC
- Empower Life & Annuity Insurance Company of New York

Empower is affiliated with Great-West Lifeco Inc. ("Lifeco") who entered into a transaction to sell Putnam Investments, LLC to Franklin Resources, Inc. ("Franklin"). As a result of the transaction, Empower's affiliate owns approximately 6% of Franklin as of January 1st, 2024. As a part of the transaction, Lifeco entered into arrangements with Franklin under which Lifeco has committed to allocate assets over a period of time to be managed by Franklin's investment managers and has agreed to support the availability of Franklin and its affiliates' products and services on enterprise platforms. If certain Franklin revenue thresholds are achieved under those arrangements, Lifeco will receive contingent transaction consideration and other financial benefits. Franklin also includes Alcentra, Benefit Street Partners, Brandywine Global, Clarion Partners, ClearBridge Investments, Franklin Templeton Investments, K2 Lexington Partners, Martin Currie, Putnam Investments, Royce Investment Partners and Western Asset Management as of January 1st, 2024.

Subcontractors:

A subcontractor is any person or entity that is not an affiliate of Empower, which is expected to receive \$1,000 or more in compensation for performing one or more services for the plan under a contract or arrangement with Empower.

Not all 12b-1 and/or Admin fees may flow through the Recordkeeper. A third party may be receiving the 12b-1 and/or Admin fees directly. Due to this, the amount shown in the Estimated Net Payments column may be overstated.

Empower may provide unit valuation and custody services for certain of the above investment options under an agreement with the plan sponsor. Any unit valuation and custody fees received by Empower are described in

the plan's administrative services agreement but are not reflected in the Payments to Recordkeeper estimates in this document.
